Note Making and Summary Writing Using Climate Literature

**Assignment**

Talk under discussion

TED talk 'How to Transform Apocalyptic Fatigue into Action on Global Warming' by Per Espen Stoknes

Questions

1. Why do we need more effective communication skills when it comes to climate change?
2. What useful strategies does the speaker suggest for effectively communicating about, and engaging with, climate change?
3. What is the significance of stories, according to the speaker?
4. Do you agree with the strategies that Per Espen Stoknes suggests? Do you think these would be successful in other communication contexts?
5. What does this talk tell us about human beings and their minds?
